**Teaching areas:**  
Economics

---

**Email:**  
ocruz@nebrija.es

---

He holds a PhD. in Economics (Universidad de Alcalá). He works in two main lines of research: the first one is social choice in small committees (especially applied to Parliaments) and the second one is teaching innovation in mathematics. He has been teaching mathematics at the University since 2001. He is a facilitator of a teaching innovation group and has participated in several teaching innovation projects (some of them related to virtual platforms).
